:: Career Details

Clinical and Technical Expert (SA & International)

Lenmed Group

12/2025 to date

The Clinical and Technical Expert will serve as a key advisor and implementer across Lenmed's healthcare network in South Africa, Africa, the UAE, and other international projects. This role bridges clinical excellence with technical innovation, ensuring that Lenmed hospitals and healthcare initiatives deliver world-class patient care, operational efficiency, and sustainable growth.

Group Trauma, Emergency and Transplant Manager

Lenmed Group

11/2021 to 11/2025

The role serves as a professional expert on trauma, emergency and transplant services to ensure the delivery of optimal quality trauma and/or emergency care as defined by national and international standards of practice. Ensure trauma centre readiness and compliance. Additionally, the position has oversight of data registries, performance metrics and research initiatives the produce exemplary optimal quality outcomes and performance. The position support critical air and ground transport initiatives, as well as regional EMS planning. This includes the analysis, development and ongoing monitoring of strategic and growth plans ensuring focus on new Trauma, Emergency and Transplant development, strategic business drivers, service line growth, goals related to service, quality, people, finance and key community and internal relationships.

National Quality and Systems Manager (Trauma & Emergency)

Netcare Hospital Group

10/2018 to 10/2021

The National quality and systems manager (trauma and emergency) is responsible for the process ownership of digitalisation projects for the division which includes the implementation of electronic systems and the facilitation of change thereof. The individual will be accountable for the general IT oversight, sustainability and management of these projects.

The National quality and systems manager (trauma and emergency) will further be responsible for managing the standardization, quality assurance, improvement and clinical governance of trauma and emergency documentation within all Netcare trauma and emergency departments and other related divisions within the Hospital group. This individual will lead the development, standardization, implementation and evaluation of trauma and emergency processes/systems processes in order to align with legislative requirements, best practice, certification, accreditation requirements as well as the Netcare strategy of Person centred Health and care. The role will focus

CV of René Ackermann

Clinical and Technical Expert (SA & International) – Lenmed Hospital Group– also a motivator of people, communicator, problem solver, and business-oriented professional.

on the support, development and mentorship of level 1 trauma programme managers in the Netcare facilities as well as ensuring a sustainable standard of level 1 trauma centres aligned to the Netcare trauma programme and the overall Netcare strategy.

Trauma Programme Manager

Netcare Union Hospital	03/2013 to 09/2018
Netcare Milpark Hospital	10/2011 to 02/2013

Netcare Milpark Hospital offers a world-renowned Level I Accredited Trauma Centre to cater for all trauma patients. It was the first Private Hospital in South Africa to receive this accreditation and is equipped to provide comprehensive emergency medical services to patients suffering traumatic injuries.

The Trauma Programme Manager is responsible for the development, implementation and evaluation of the trauma program at a Level 1 Trauma Centre and works in collaboration with the Trauma Director of the Trauma Centre. The Trauma Program Manager assumes responsibility for process and performance improvement, including clinical, educational, marketing and outreach activities aiming at the trauma system.

Director of Nursing

Bokamoso Private Hospital (www.bokamosohospital.org)	11/2010 to 09/2011
--	--------------------

Bokamoso Private Hospital is an internationally recognized centre of medical excellence providing state-of-the-art health care services and an advanced nursing practice model for global implementation in Botswana.

Notable Achievements

- Carried the Hospital through very difficult times, keeping the **Nursing Department** running on very low **budget** during Provisional Sequestration process of the Hospital.
- **Optimised** the department to **cut** all possible **costs** without impacting **service delivery** to the patients, Hospital and its customers.
- Assisted with **redesigning** the **workflow and processes** of the hospital to **turn it around** from a loss-making organisation to a **profitable** entity.
- As the Acting Director of Nursing, I was part of the management team (4 members) that turned the financial position of the hospital from a P20 million to a P3 million loss in 6 months.
- Member of the Senior Management team that created a business case and strategic business plan to secure a long-term financial solution for the Hospital to ensure survival of the hospital in the Botswana market.

Service Line Director – Hospital Services

Bokamoso Private Hospital (www.bokamosohospital.org)	3/2010 to 10/2010
--	-------------------

Job Overview

The Nursing Service Line Director provides clinical, operational and administrative oversight to patient care areas within the service line. Creates and promotes an environment of cooperation and coordination within the service line and among other hospital departments. Responsible for the overall financial well-being of the units within the service line with budgetary oversight for personnel, supplies and capital equipment. Leads the performance improvement initiatives of the service line. Responsible for the optimal management of the Accident & Emergency Unit, Out-patient Department and Phlebotomy Nurses.

CV of René Ackermann

Clinical and Technical Expert (SA & International) – Lenmed Hospital Group– also a motivator of people, communicator, problem solver, and business-oriented professional.

Notable Achievements

- Assisted with ensuring that then newly opened Accident & Emergency unit adheres to international emergency medicine standards.
- Developed the Major Incident Plan for Bokamoso Private Hospital.
- Ensured and assisted that a stock management system was developed for the Accident & Emergency unit was developed to manage stock more effectively especially from a financial perspective.
- Assisted with guidance and support to the Out-patient department in the planning and implementation of opening an off-site remote clinic for the management of Paediatric and Obstetric patients.
