

This two day course provides a review for those nurses planning to take the Trauma Certified Registered Nurse (TCRN) exam or for those who want to expand their trauma knowledge base. The review course incorporates the body of knowledge in trauma nursing that exist across the continuum of care from injury prevention to integration back into society.

This course provides an excellent final review for those planning to take the TCRN exam. Lastly this is a terrific way to obtain contact hours for nurses who work in trauma centers.

It's a beautiful day to save the life of a trauma patient!
