Course Information

Course Overview
The Children’s Hospital of Philadelphia proudly presents the 11th Annual Conference – Topics in Pediatric Surgical and Trauma Nursing. The format for this two-day program will be general lectures with afternoon concurrent sessions. The concurrent options will be available to all levels of nursing expertise. Expert faculty will share the lessons they have learned by managing children who experience unexpected illness and trauma. Nursing faculty and practice leaders will be on hand to make sure you practice and learn how to continue to improve the quality of the hospital bedside one family at a time.

General Information
The conference will be held Thursday, Nov. 14 and Friday, Nov. 15, 2013, at The Children’s Hospital of Philadelphia, 34th Street and Civic Center Boulevard, Philadelphia, PA 19104-4399.

Call for Abstracts
The conference directors and planning committee invite you to submit an abstract for consideration for the poster session held during the conference. Share your knowledge and experiences on surgical and traumatic injury. Rejuvenate your best practices in nursing procedures, new technologies, approaches to patient teaching, coordination of patient care, process improvement projects, use of new patient care products, or research. The format for the poster session will be a “hot wall” – topics include: pediatric trauma, neonatal trauma, abdominal trauma, burn, brain injury, musculoskeletal trauma, extremity trauma, extremity injury, brain tumor, pediatric surgical interventions, surgical nursing, surgical outcomes, surgical anesthetics and more.

The deadline for abstract submission is Friday, Sept. 6, 2013. Accepted abstracts will be published in the conference syllabus. One poster presentation at the conference will be selected. Requests to submit an abstract are welcome. A limited number of presenters will be selected. Preconference workshops and more
